Shared Responsibility

Even though Microsoft hosts the infrastructure, this doesn't replace your responsibility to backup business-critical O365 data. Of over 1,000 IT Pros surveyed, 80% experienced data loss in M365.

With M365, it's your data – you control it – and it is your responsibility to protect it.

Backup for M365 eliminates the risk of losing access and control over your O365 data, including Exchange Online, SharePoint Online, OneDrive for Business and Microsoft Teams – so that your data is always protected and accessible.

O365 Cloud Backup

- Vault365 Backup for O365 mitigates the risk data, so that your data is always protected and accessible.
- Reduce the time and effort needed to find and restore email, OneDrive and site data.
- Protect against data loss scenarios that are not covered by Microsoft.
